**ISPE TURKEY STUDENT CHAPTER**

ISPE, the International Society for Pharmaceutical Engineering, is the world's largest not-for-profit association serving its members by leading scientific, technical and regulatory advancement throughout the entire pharmaceutical lifecycle. ISPE is committed to the advancement of the educational and technical efficiency of its members through forums for the exchange of ideas and practical experience.

ISPE was founded in 1980 by a handful of people who believed the pharmaceutical industry needed an organization that would deal with practical applications of science and technology for technical professionals. In time, ISPE Membership expanded beyond engineering to include a broad representation from pharmaceutical professionals.

ISPE Turkey Student Chapter is a student community, which is a bridge between pharmacy students and pharmaceutical industry. The chapter is also a sub-community of ISPE Turkey Affiliate and has been chosen as “Student Chapter of the Year” at 2009.

Our chapter is always up-to-date and in touch with pharmaceutical world and also pharmacy students. We organise seminars, career days, trips to pharmaceutical factories, share new informations, developments in the world of pharmaceuticals with pharmacy students and we regularly host pharmaceutical professionals in our faculty. We are always open to new ideas and improvements, anyone who is interested in pharmaceutical industry is welcome to work with us.
