Istanbul University Faculty of Pharmacy

Istanbul University Dermocosmetics Pharmacy Club

What is Dermocosmetics Pharmacy?

Dermocosmetic Pharmacy; allows people to easily access the appropriate dermocosmetic product, for the appropriate duration and dose, at the lowest price, according to their clinical findings and individual characteristics. It also includes the professional knowledge and treatment in the group of drugs and selfcare products used for skin, hair, and body care. Dermocosmetic products are sold in pharmacies and prescribed by relevant doctors according to the skin type and its needs. It can be used directly or as supportive care in treatments. The knowledge of pharmacists, who are first-degree experts of pharmaceutical and cosmetic products; covers every field, especially the manufacturing of the raw materials, production and storage of dermo cosmetic products and their delivery to the patient in the most appropriate way.

Personalized Treatment and Professional Care
Professional Trust
Health Professionalism
Expertise From Production to Presentationk

What is our club's vision and mission?

A First in Dermocosmetics
Growing Sector and Competent Pharmacists
Healthy Beauty
A Club with Science at Its Center

We are proud and excited to be the first pharmacy club established in the field of Dermocosmetics in Turkey. Dermocosmetics is an important field that has been developing rapidly in the market and has the potential to continue this in the future. İÜDEK aims to associate and share the developments and initiatives in the field of dermocosmetics in our country; It is a club that provides pharmaceutical activities to raise awareness and to make pharmacists more competent in this field. Dermocosmetics is an important field in terms of public health today, and all kinds of positive and healing effects are aimed. As İÜDEK, our vision is to emphasize that the field of dermocosmetics is a rapidly developing and important field for pharmacy, to contribute to the development of competent pharmacist candidates, to bring together students and professionals, to participate in meaningful discussions and to be a student center that encourages knowledge.

OUR PROJECTS (FALL)

Monthly Club Chats

Pharmacists who are experts in their fields, dermatologists and some important names in the sector will have chats with our faculty's students and academic staff at least once a month starting from October.

Dermocosmetics Student Discussions

Pharmacy includes practical knowledge as well as theoretical knowledge. Sharing knowledge among the professional community needs to be used and experienced. In this context, with our faculty students we will share our experiences and try new products through our sponsors.

In-school Dermocosmetics Training

Each month, a specific topic will be taken as basis and detailed research will be conducted by our academy unit on this topic. Our information will be transferred to future pharmacists whether online or face to face.

Dermocosmetic Speaking Club

English is a necessity for our profession. A speaking club will be held on the subject determined that month (in-school dermocosmetics training) to contribute to our faculty’s student’s English proficiency.

OUR PROJECTS (FALL)

Dermocosmetics Cinemas

There will be cinema events where we will comment and discuss the movies or TV series which are about pharmacy and cosmetics with pharmacy students and accompany of our professors.

Company Trips

Visits will be made to companies, firms, and production centers in the dermocosmetics, cosmetics and pharmaceutical sectors.

Workshops

Lip stick, moisturizer, sunscreen, perfume, etc. workshop practices will be done whether special event or coordinately with our other events.

Advisory Committee

We are aiming to establish a committee with expert pharmacists, dermatologists, academicians, and names from the industry to discuss the progress and the course of dermocosmetics. This committee will also be beneficial in terms of counseling our club and pharmacy students.

1 st Dermocosmetic Congress

Our biggest goal is to organize many congresses on dermocosmetics in the field of pharmacy regularly. We expect record participation in the congress that we are planning to do at the end of the term, and we will organize larger events in each new congress.
