Green Particapation, Green Europe

Application of Green Practices

A6

Funded by the European Union

Application of Green Practices

Participants will exchange green practices from their respective countries, creating a collaborative platform for sharing sustainable solutions. The event will conclude with a quiz to gather participant feedback, and the results will be disseminated through the project's communication channels.

Green Practices

Plant
Trees

Recycling
The Trash

Watering
plants

Reducing
Plastic Waste

By integrating green practices into various sectors, it is possible to create a more sustainable future, reduce environmental degradation, and promote ecological balance.

Thank You
