GREEN JOBS

INDEX

WHAT IS ENTREPRENEURSHIP& BIOENTREPRENEURSHIP

WHAT ARE GREEN JOBS

WHAT ARE GREEN STARTUPS DOING

YOUTH OPPORTUNITIES

WHAT IS ENTREPRENEURSHIP?

Entrepreneurship means starting a business or project based on a new idea.

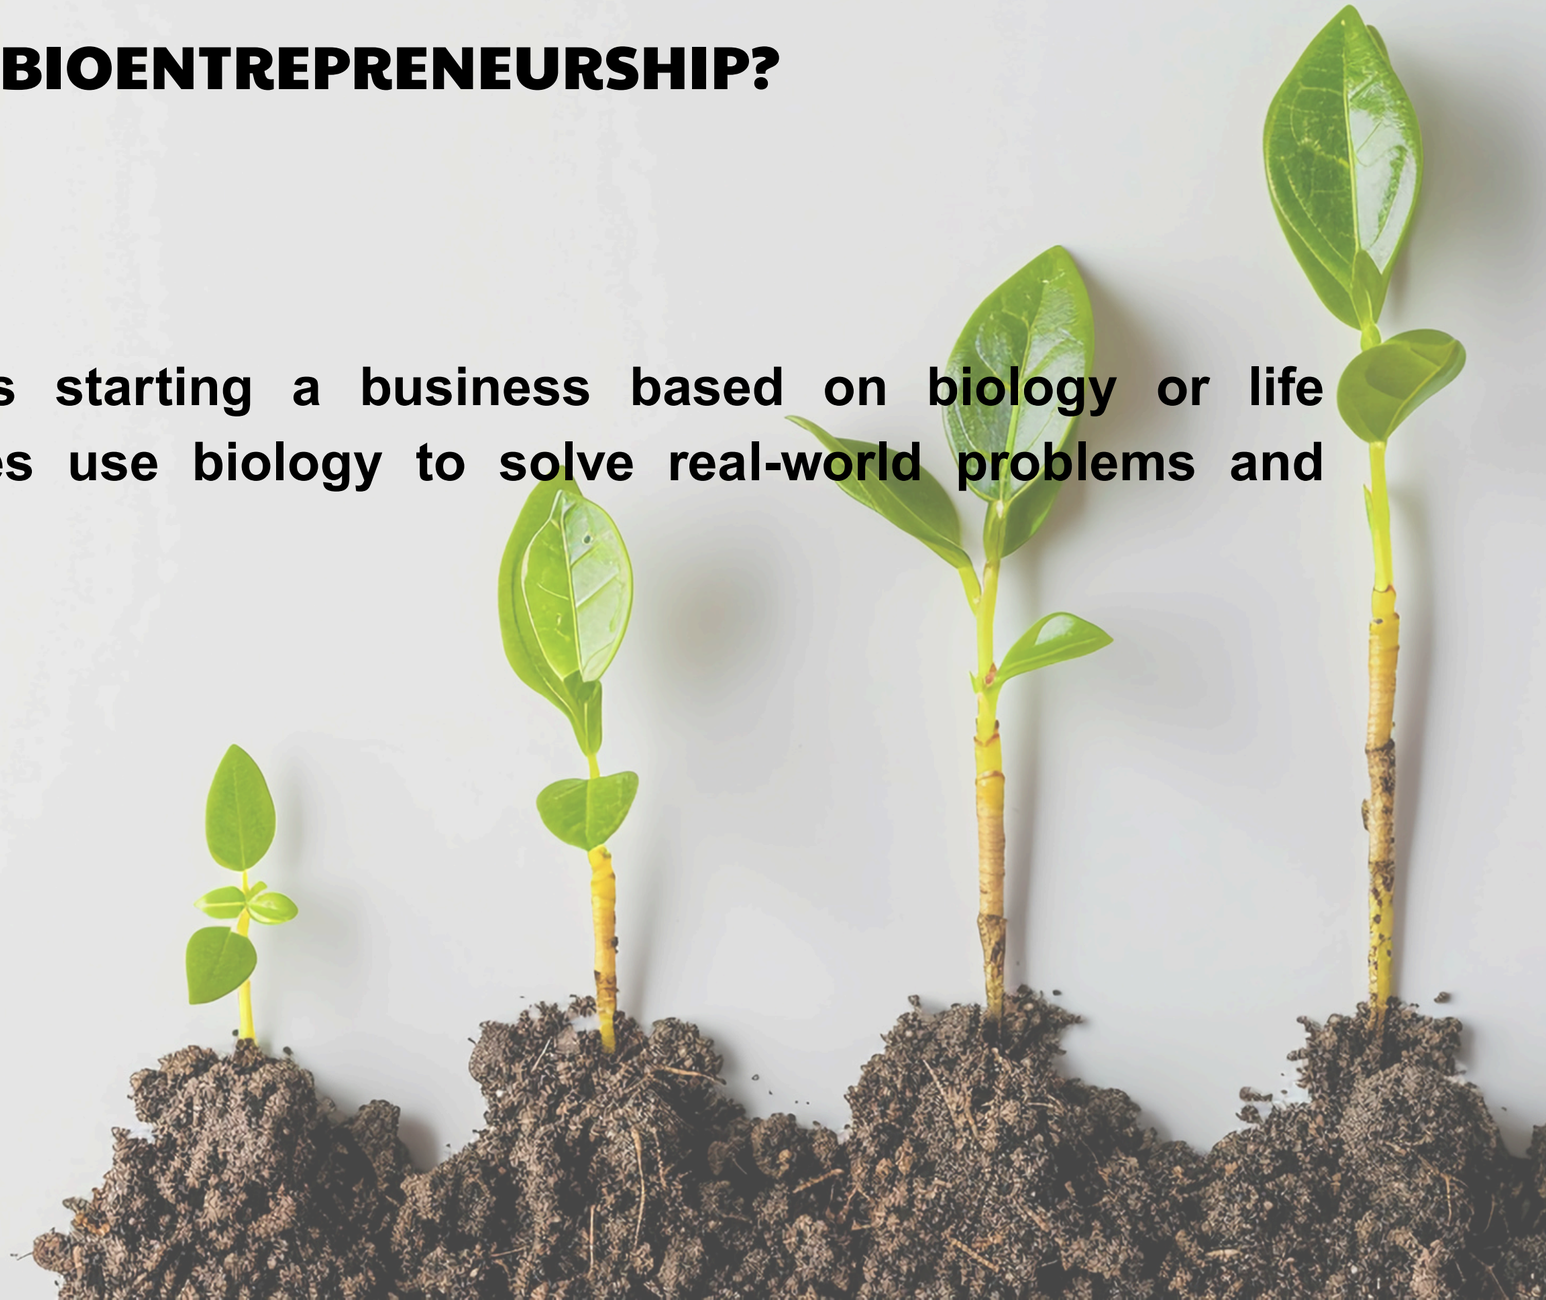

Entrepreneurs usually:

- Have a new idea
- Take risks
- Try to build something useful
- Create jobs and value

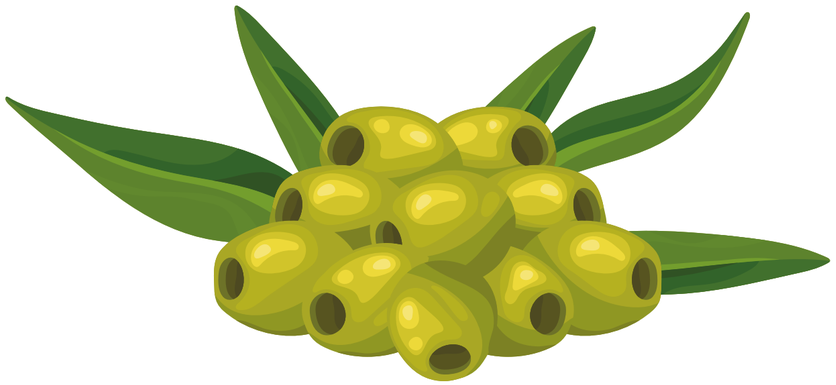

WHAT IS BIOENTREPRENEURSHIP?

- Bioentrepreneurship means starting a business based on biology or life sciences. These businesses use biology to solve real-world problems and create solutions.

BIOLIVE (TURKEY)

This startup turns olive seeds into bioplastics, reducing plastic pollution using agricultural waste.

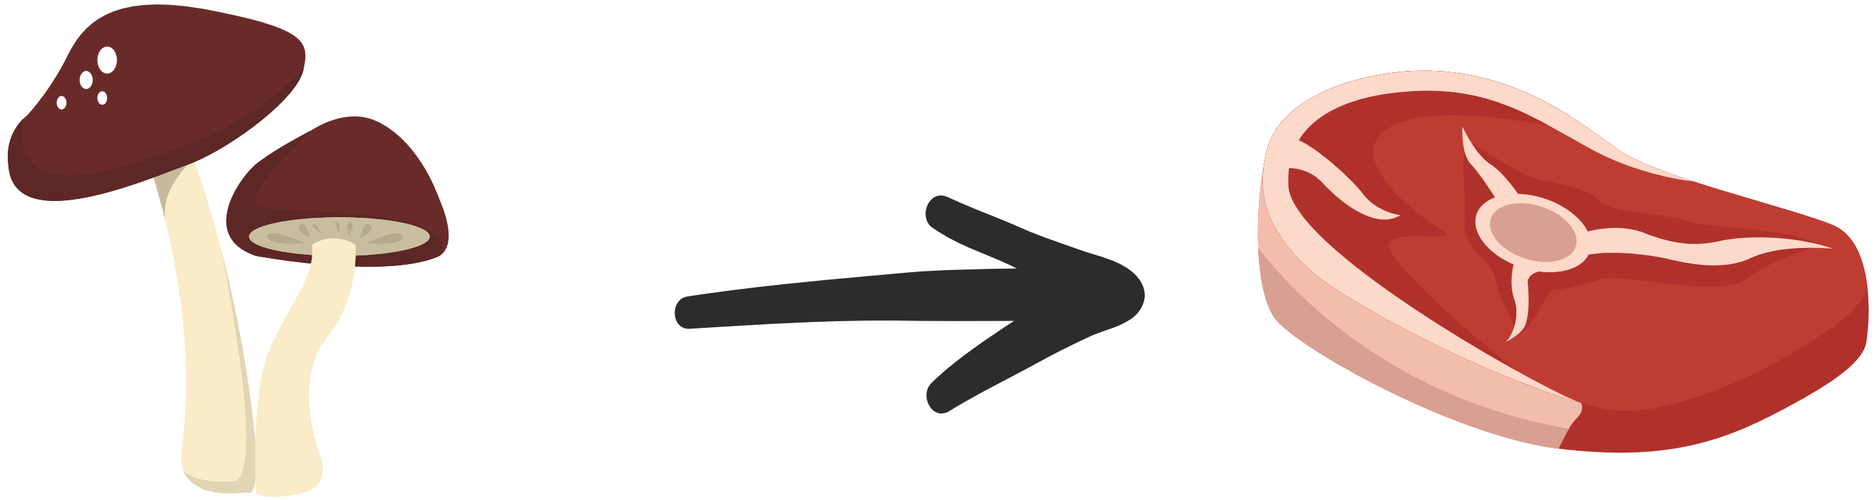

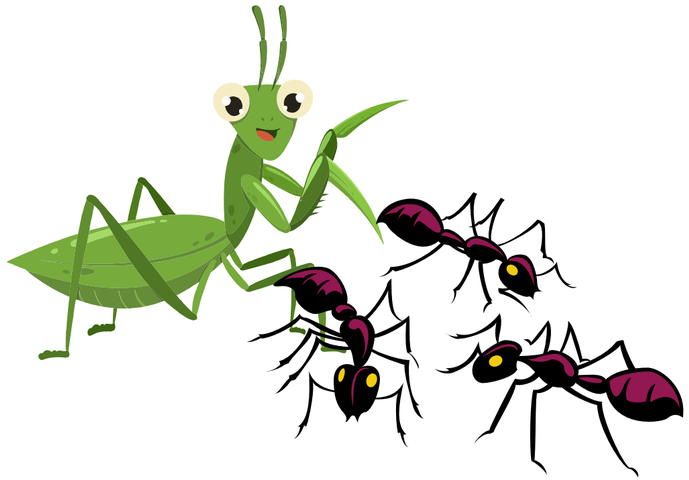

MYCORENA (SWEDEN)

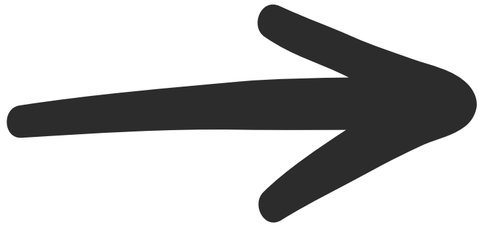

They create a fungus-based protein as an alternative to meat

YNSECT (FRANCE)

They grow insects to make animal feed and fertilizer.

WHAT ARE GREEN JOBS?

A green job is any job that helps the planet.

This includes:

- Reducing pollution
- Saving energy
- Fighting climate change
- Protecting natural resources

Green jobs can be in:

- Solar energy
- Wind power
- Public transport
- Recycling
- Sustainable farming
- Eco-friendly design

Green Jobs – Environmental and Economic Impact

Green jobs help protect the environment in many ways:

- They reduce pollution
- They save natural resources
- They help fight climate change
- They improve air and water quality, which helps both people and nature.

Green Jobs – Environmental and Economic Impact

Green jobs are also good for the economy.

- They create new jobs
- They help people save money
- They support local businesses
- They give people new skills

Examples of Green Jobs

1. **Wind Turbine Technician**
2. **Waste Management Worker**
3. **Organic Farmer**
4. **Energy Auditor**

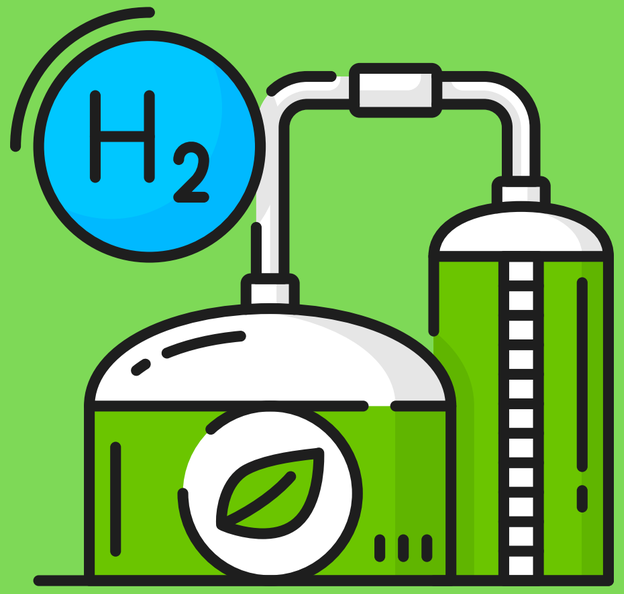

WHAT ARE GREEN STARTUPS DOING?

- A green startup is a new business that helps the environment.
- They work with clean energy, clean transport, recycling, or eco-technology.

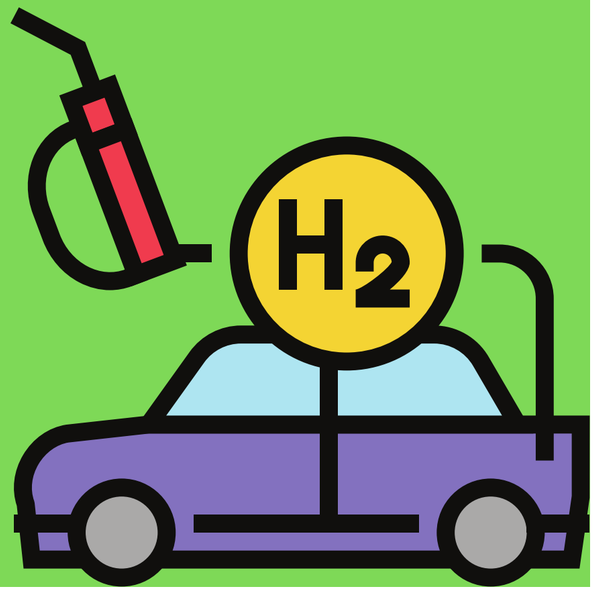

ENAPTER

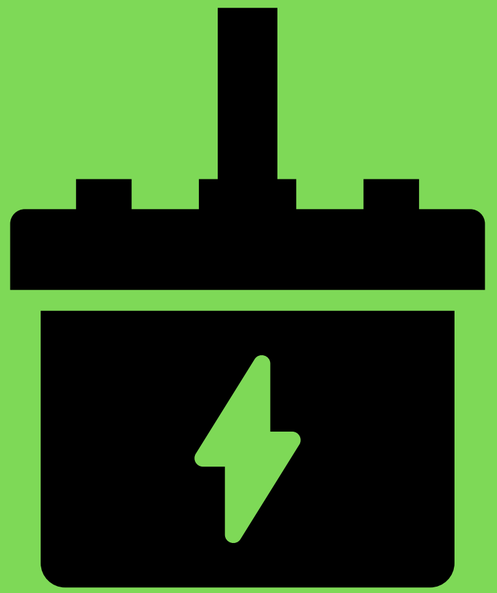

They make small machines that create hydrogen fuel from water and electricity.

This fuel can be used for:

- Cars
- Trucks
- Trains
- Even buildings

SKELETON TECHNOLOGIES

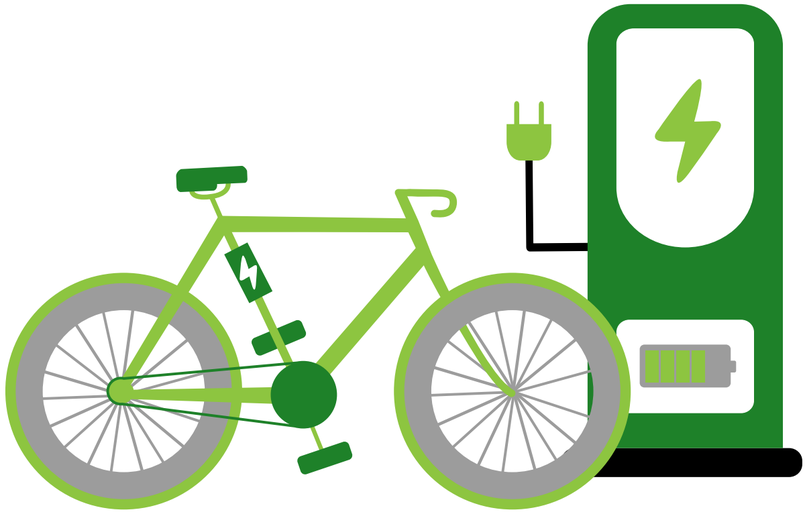

They create special energy storage devices called ultracapacitors.

These help:

- Store energy from solar and wind power
- Charge and release electricity quickly
- Make electric cars and buses more efficient

COWBOY

They make smart electric bikes for people living in cities.

Their bikes:

- Are easy to use
- Reduce traffic and pollution
- Make commuting more fun

YOUTH OPPORTUNITIES

1. Funding Opportunities

- Horizon Europe
- EU Green Deal Calls
- EIT Climate-KIC

2. Accelerator Programs

- ClimateLaunchpad
- GreenTech Challenge
- EIT Jumpstarter

3. Internships and Volunteering

- EIT InnoEnergy
- European Solidarity Corps
- Impact Hubs and Climate NGOs

CONCLUSION

- Entrepreneurship is about solving problems with new ideas
- Bioentrepreneurship uses biology and science to protect the planet
- Green jobs are growing, and they are important for our future
- Green startups are making real changes in energy, food, and transport

Thank you
