Dear Friends and Colleagues,

We would like to invite you to submit research papers at the **8th International Conference on Future Learning and Informatics: Data Revolution (FL2020)**. At such times when data and information technology are of paramount importance, like today, education is more than a means for providing jobs for the young people. Education is now destined to have a multidimensional role for individuals, companies and institutions through which they can improve and strengthen their traits to survive in a highly volatile world. **FL2020** aims to discuss future innovations in the fields of learning and informatics, particularly impact of informatics applications on learning experiences. We believe that the **FL2020** Conference, for the eighth time, will encourage a productive debate on strategies for developing the most effective methods, techniques and technologies that will serve humankind in the lifelong learning process. It also will provide a platform to the researchers and practitioners from both academia and Industry to meet and share cutting-edge development in the field. Data is a treasure that generated in our daily lives. Hence, we have chosen the theme of **FL2020** as "Data Revolution". Please take the time to explore the website for more details, check on important dates, and keep yourself up to date on recent changes. Due to the current Coronavirus outbreak, our conference will be held as e-Conference.
